- 2. Security: There were no security incidents during this period.
- 3. Agent Personnel: The termination of these two Agents came as a severe shock to both; they were not prepared for it. They have adapted fairly well and now are looking forward to their new life in Spain. They intend to depart Mexico for Madrid on 1 September.
- 4. <u>Production</u>: Production for this period was normal until 20 June when it ceased permanently.
- 5. Administrative/Finance: There was a large amount of administrative detail involving Headquarters and the (Madrid)/5-2 discussed in separate cable traffic. Costs exceeded the programmed over ten years service each. OC(KDAFGHAN-1 was paid U.S. \$8,170.00 and (KDAFGHAN-2 was paid U.S. \$2,228.48.
- 6. Plans: We have no plans to replace (KDAFGHAN with another strictly photo-surveillance project. The production does not justify the cost. However, we do have plans to obtain a multi-purpose basehouse in the area that can serve as a site for taking photos when necessary, serve as a LP for future audio operations against AMFINK, and as a base from which to dispatch a future surveillance team. The PBRUMEN section has already started the search for agent assets who, in turn, can look for an appropriate rental property is at a premium in the AMFINK area. Headquarters will be kept informed of our progress.
